

Welcome to the City of Fort Worth's Redistricting Map Tool Video Tutorial

Getting Started

This video covers the basics of Map Tool registration and provides an overview of how the site is organized

ESRI's redistricting software is a web-based application that provides online access to redistricting tools via the Internet.

Getting Started With On-Line Software Training

- **Suggested System Requirements**
- **Getting Started** from Fort Worth's Webpage
- On-Line Software **Registration and Overview**

Suggested System Requirements

BEFORE you use the On-line Map Tool.

This On-line Service is best viewed using **Internet Explorer**.

You may be prompted to install an upgraded version of **Adobe Flashplayer**. If you get a Flashplayer warning, just follow Flashplayer Installation instructions.

If you are ***not using Internet Explorer*** as your browser, you will need to make sure that you have installed **Adobe Flashplayer 10.3** or higher for your specific browser (e.g., Mozilla, Chrome, etc) from Adobe's homepage

FORT WORTH

Redistricting

Redistricting is the process of redrawing election district boundaries.

The "one person, one vote" standard arising from the Equal Protection Clause of the United States Constitution requires that election districts for state and local governmental officials (such as City Council members) have approximately equal populations. Therefore, when there is a new federal census indicating population change, political subdivisions must determine whether existing districts still satisfy the equal population requirement. If not, they must redistrict.

Public Participation

The City of Fort Worth separates the redistricting process into two phases to make it easier for residents to participate:

Phase 1: Determination of the number of City Council districts

The City Council adopted [resolution 4044-11-2011](#) Nov. 15, 2011, opting to keep the current eight-district (plus mayor elected at large) structure. City staff began preparations to redraw district boundaries.

Phase 2: Approval of a single-member City Council district plan

With the number of districts is determined, council is asking residents for district plans. Staff and council members also may present plans. Plans will be reviewed by council and considered at public hearings before council votes to adopt a district plan.
